EDEVELOPMENT AGENCY MINUTES - MAY 12, 1998

Ms. Hightman stated the developer is advancing all of the \$192M that is needed for this project, the Agency and the City will repay him over 30 years at either 6% or 10% interest rate. But if he does not generate the sales tax or the tax increment, then the City is not obligated to make this payment.

Sam Marasco, President, LandGrant Development Company, available to answer questions.

Public Testimony - Opposition

Christine Myayotie, District Director for Senator Denise Ducheny, who represents San Ysidro in the State Assembly. She said our purpose today is to support the position of the San Ysidro Project Area Committee in its request for a delay or if there is no delay in opposition to the DDA. There are many questions that need to be answered, for example the role of the trolley and the conflicts in the recent report of the GSA. She distributed a letter to the Mayor and City Council about the project.

Jesus Torres talked about a new port of entry into San Ysidro, and the trolley to the west of I-5.

Irene Stollard Rodriguez, President of the San Ysidro Chamber of Commerce, requested that the complexity of this project that there be an extension for the community and businesses to have the opportunity to review the DDA.

Lorraine Ramirez, member of the San Ysidro Project Area Committee, said there are many questions to the DDA that need to be answered, and requested an extension.

Dwight Warden, attorney, representing Baja Mex-Insurance Agency, said there are two actions: 1) the mitigated negative declaration, and; 2) the the DDA. Mr. Warden said we submitted to you a packet with comments regarding the mitigated negative declaration, we believe that those have not been resolved. We do not believe that the mitigated negative declaration is adequate. Mr. Warden said Baja Mex-Insurance Services have been a fixture in the San Ysidro Community for a least 10 years or more. They support the project, excite about the concept of redevelopment in this area. Our client Baja Mex hopes to participate in the project, and we have been discussing that with Mr. Marasco and his staff and attorneys and hope to reach an agreement in that regard. At present, Baja Mex does not believe that it is necessary to condemn their property in order for the project to go forward. In the past, Baja Mex was subject to eminent domain actions and lost property and the opportunity to participate, and redevelopment actions in San Ysidro Community and do not want to happen again. They do not want simply to be bought out, and pushed aside. He stated on the \$6.00 per sq. ft. pricing is low, Baja Mex paid \$25.00 a sq. ft. for their property almost ten (10) years ago, and was appraised at \$37.00. Baja Mex property is right at the entry way, not blighted, got a nice smooth thriving business on it, and hope that both issues would be resolved, and we could participate in this project.

Howard Burns, assent manager, representing MacDonald, to ensure that the existing MacDonald's retain their viability. He stated that there are letters from GSA and Baja Mex. He had concerns about the CEQA checklist nos. 13 and 14. That East San Ysidro is considered and not ignored. Mr. Burns presented a letter from MacDonalds.
